Curriculum Vitae

Jason J. Henderson (b. 1976, US) is an emerging, artist who works primarily in acrylic paint. He mixes dance gesture, drawing, painting, airbrush, typography, and graphic design principles to express an interplay of multiple layers and textures to create abstract and/or representational pieces. He creates uniquely crafted experiences to reveal new possibilities from beautiful realms previously unseen. Vincent Van Gogh, Salvador Dali, Georgia O'Keeffe, Paul Rand, Arshile Gorky, and Walter Gropius are a few of his greatest influences. He is currently working on a new body of work based on his journey through religious deconstruction, spiritual resurrection, and mystical encounters.
